

# Winner of the 2012 IAG Early Career Researcher Award

## Marcela Camargo Matteuzzo

In 2012, our Early Career Researcher Award was offered for the best poster shown at Geoanalysis2012 in Búzios, Brazil. It was won by Marcela Camargo Matteuzzo from the Universidade Federal de Ouro Preto (Brazil)/Université Aix-Marseille III (France). She and her coworkers presented a poster entitled *Assessment of the relationship between  $\delta^{18}O$  freshwater sponge spicules and  $\delta^{18}O$  pond water for paleoenvironmental purpose: a modern case study (Lagoa Verde-MG, Brazil)*.

Marcela is currently a Professor at the Betim Campus of the Federal Institute of Education, Science and Technology in Minas Gerais, Brazil.
