

IAG Early Career Researcher Award 2024

The International Association of Geoanalysts (IAG) announces the 2024 Early Career Researcher Award for one outstanding scientist/geoanalyst whose research closely reflects the goals of our Association. Specifically, we are looking for advances in the following key areas of geoanalysis:

- The characterisation of new geochemical reference materials
- The development and validation of new geoanalytical methods
- The application of new or refined statistical methods to geochemical data

The candidate must be nominated by a senior scientist. The award is based on high quality accepted or published papers that use valid and current metrological concepts and terminology.

The candidate must fulfil the following criteria:

- Currently be studying for a Master's degree or Doctorate, or within 3 years of receiving this degree in the year nominated
- The first author of at least one peer-reviewed, accepted or published, paper in an international journal and must have conducted the majority of the research work of this publication
- The candidate will attend the Goldschmidt Conference 2024 in Chicago, USA

The **IAG Early Career Researcher Award** consists of a certificate recognizing the winner's contribution to the field of geoanalysis, a cash award of 1000 USD, the registration fee for the Goldschmidt Conference 2024 in Chicago, USA where the winner will receive the "IAG Early Career Researcher" certificate, and an 18-month free membership of the IAG.

Nomination Form for IAG Early Career Researcher 2024

Name of Senior Scientist who is nominating the Candidate: _____

Affiliation: _____

E-mail address: _____

Candidate's full name: _____

Affiliation: _____

E-mail address: _____

Please give details of the year the Master's degree or Doctorate was awarded, and the institution (List degree, year, institution). *Important: Candidates must currently be studying for their Master's or Doctoral degree or be within 3 years of receiving their Masters degree or Doctorate when the candidate is nominated for the IAG Award, i.e., in 2020 or later.*

Degree:

Year:

Institution:

Focus of research:

Please list the candidate's contributions:

At least one first-authored paper accepted for publication or already published in an international peer-reviewed journal in the field of high-quality geoanalytical or metrological research is required. Only the two most relevant papers should be listed here:

1)

2)

Submission Instructions:

To nominate a candidate, please e-mail this nomination form, along with the following documents to Jennifer Cook, Honorary Secretary, International Association of Geoanalysts, at jmc@bgs.ac.uk

- One letter of support from a senior scientist from the geoscience community – up to 300 words
- CV or resumé of the candidate in a Word or PDF file – maximum one page
- pdfs of the above-mentioned publications

Submission deadline for the 2024 Award: 31 October 2023.

Submitted contributions will be judged by a scientific committee appointed by the IAG Council.

Winners will be announced and notified by 1 February 2024.
